

SCRIPT DE COMMANDE

UNE COMMANDE PLUS COMPLEXE

```
let move_east =  
  Chain(  
    Chain(Face East,  
          Chain (  
            Start, Stop  
          )),  
    Chain(Face South,  
          Chain (  
            Start, Stop  
          ))  
  )
```

SCRIPT DE COMMANDE

ÉCRIVONS UN DSL

```
let (-->) cmd1 cmd2 = Chain(cmd1, cmd2)

let _ = Face East
      --> Start
      --> Stop
      --> Face South
      --> Start
      --> Stop
```
