LES UNIONS

LINK TO THE PATH

```typescript
type Direction = "North" | "East" | "South" | "West";

const label = (d : Direction) : string => {
  switch (d ){
    case "North": return "north";
    case "East": return "east";
    case "South": return "south";
    case "West": return "west";
  }
}
```

"North", "East", "South", "West" sont des types! (String literal type)
